

Books: An introduction

Why are books so essential for academic work?

- Help you understand general theories
- Give you background information & provides related research
- Are an excellent secondary source
- Enable you to put your topic into context

Take me to the Library!

Ok, what now?

Where do I start? And what's available?

We have over 120,000 print books and over 200,000 Ebooks.

Sounds Great! And much better than using Google

Print or Ebook?

How do I know whether you have the book which I want?

If it's on a Reading List. It's available!
